Reasons for Allowance

1. Claims 1-17 will be allowed.
2. The following is an examiner's statement of reasons for allowance.

The prior art references most closely resembling the applicants claimed invention are Mouly (U.S. 5,878,033), Moline (U.S. 6,067,566) and Cheng (U.S. 6,157,949).

First, Mouly disclosed transmitting messages which are broadcast successively and at regular intervals to mobile stations on a particular radio channel of the TDMA network. However Mouly failed to disclose "wherein said repetition distance is calculated using an iterative loop over all of said plurality of segments of the broadcast cycle in transmission order" (1,14).

Second Moline disclosed distributing MIDI tracks across a network using non-real-time protocols such as TCP/IP. Included are techniques for producing MIDI tracks from MIDI streams as the MIDI streams are themselves produced and distributing the MIDI tracks across the network, techniques for dealing with the varying delays involved in distributing the tracks using non-real-time protocols, and techniques for saving the controller state of a MIDI track so that a user may begin playing the track at any point during its distribution across the network. However Moline did not disclose "wherein said repetition distance is calculated using an iterative loop over all of said plurality of segments of the broadcast cycle in transmission order" (1,14).

Art Unit: 2145

Third Cheng also failed to disclose, "wherein said repetition distance is calculated using an iterative loop over all of said plurality of segments of the broadcast cycle in transmission order" (1,14).

In summary, the Examiner submits that neither Mouly, Moline nor Cheng teaches all the limitations of independent claims in combination with other elements. Specifically prior art does not teach "wherein said repetition distance is calculated using an iterative loop over all of said plurality of segments of the broadcast cycle in transmission order"; therefore, claims 1-17 have been deemed allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
